

NOTE ON JOINING ZOOM MEETINGS FOR THE FIRST TIME

Hello there! If you've not used Zoom before, it's easy. I will send you a link which you click on, and then your browser takes you to Zoom, you type in your name, and you'll join the meeting.

BUT I've noticed Zoom tries to download its app onto your machine, but this isn't necessary as you can join through your browser. So to stop it doing this, follow these simple steps:

1) WHEN YOU FIRST CLICK THE LINK

Zoom assumes you want to download its app, and asks you where to save it. Hit CANCEL so you are not saving it.

2) CLICK THE WORDS 'JOIN FROM YOUR BROWSER'

You should see this, as below. If you can't see the magic words 'join from your browser', click the blue **Launch Meeting** button as that seems to bring up the 'join with browser' line. Click the 'join with your browser' link (NB: Firefox isn't good with Zoom, better to use Chrome, Edge, Safari).

Once you install Zoom Client, click **Launch Meeting** below

[Launch Meeting](#)

Don't have Zoom Client installed? [Download Now](#)

Having issues with Zoom Client? [Join from Your Browser](#)

3) ENTER YOUR NAME

Join a Meeting

Your Name

Trinity Pumphouse

[Join](#)

Zoom is protected by reCAPTCHA and the [Privacy Policy](#) and [Terms of Service](#) apply.

You will now be in the meeting. If the screen says the host has not yet admitted you, I'll see you've turned up and let you in.
